Newton School
of Technology

PROFESSIONAL SUMMARY

Data Analyst skilled in Python, SQL, and Tableau, with experience in data cleaning, exploratory data analysis (EDA), and dashboard development. Analyzed real-world datasets to uncover insights on workforce productivity, burnout, and economic trends, enabling data-driven decision making.

EDUCATION

Bachelor of Technology (Artificial intelligence)	2024 - 2028
Newton School Of Technology, Rishihood University	Grade: 6.8/10.0
Intermediate (Class XII)	2023 - 2024
BLUE BELLS ACADEMY	Grade: 73.2%
Matriculation (Class X)	2021 - 2022
OPENMINDS A BIRLA SCHOOL	Grade: 82.0%

PROJECTS

NYC-AirBNB Analyzer (Github) (Demo)	April 2026
Tools: Python, Pandas	
- Analyzed Airbnb dataset to identify trends in pricing, availability, and location - Performed EDA to uncover key factors influencing listing performance - Generated insights to help users identify optimal listings based on preferences	
Privatization Trends & Economic Impact Analysis (Demo)	March 2026
Tools: Python, Pandas	
- Analyzed sector-wise privatization trends to assess their impact on economic performance - Identified patterns linking privatization levels with efficiency and investment growth - Provided insights into public vs private sector dynamics using data analysis	
Workforce Health & Productivity Analysis (Demo)	March 2026
Tools: Python, Pandas	
- Analyzed workforce data to evaluate the impact of stress, sleep, and work hours on productivity - Performed EDA to identify trends showing high stress and low sleep reduce performance - Generated insights supporting balanced workload strategies for improved productivity	
The AI Productivity Paradox (Github) (Demo)	February 2026
Tools: Python, Pandas	
- Analyzed 5,600+ employee records to study the impact of AI usage on productivity and burnout - Engineered KPIs and built a dashboard to track performance, revealing optimal AI usage (5–12 hrs/week) - Found that excessive AI usage increases burnout and error rates without proportional productivity gains	

SKILLS

Computer Languages: NoSQL, Python, SQL

Data Tools: NumPy

Software Packages: Pandas, Matplotlib, Excel, MongoDB

Others: Tableau

EXTRA-CURRICULAR ACTIVITIES

- Cricket all-rounder and footballer with solid reflexes and teamwork.
- Passionate gamer, excelling in BGMI(college lan level), COD and , enhancing strategy and problem-solving skills.
